

Early Learning and Therapy

Early Childhood
Intervention
Services

We support you so you can maximise your child's development and participation in life. We'll help you gain knowledge, skills and support needed to meet the needs of your child. We have a transdisciplinary team approach. This means allied health and educational professionals work together to offer a range of services specifically for your child.

Our team of specialist early childhood educators and therapists are experts in Speech Pathology, Occupational Therapy, Psychology, Education and Music Therapy. Services are delivered in your home, community settings, early childhood services, schools or at our site in Kew.

We are a NDIS registered service provider and have other funding options available.

What we do

- Evidence-based, early interventions delivered by a transdisciplinary team of allied health and education professionals
- Individual Speech Pathology, Occupational Therapy, Psychology, Music Therapy and Specialist Education Support for children up to 12 years old
- Short term goal-focussed groups
- Developmental assessment clinic
- Peer support for parents and carers.
