# The VMCH Way

You may have heard of the Montessori approach to Aged Care; principles that support older people to live with independence, autonomy, and engage in meaningful occupations. Here at VMCH, we have adopted The VMCH Way – an innovative methodology, based on Montessori principles, designed to support older people to live an enriched life.

We support and nurture residents yet encourage them to do as much as they can for themselves. Involving a person in everyday activities is key to feeling valued and having a sense of purpose. We invite family, friends and staff to get involved; working together to ensure the very best outcomes.

## Pastoral Care

Our pastoral care service is designed to help residents settle in their new home, and to support families during the transition. Soon after your arrival, one of our friendly Pastoral Care Practitioners will spend time getting to know you, helping to ease any worries and learning about your personal and spiritual interests.

You don't need to be Catholic to join VMCH Providence or to access our pastoral care program. Our team welcomes people from diverse cultures and faiths and considers it a privilege to care for those who put their trust in us.
